

My Brain Has Many Important Parts

Name: _____

Date: _____

Parent: In THE GREAT BODY SHOP, we've been talking about the brain and how it works. Your child has learned that nerves are like wires that carry messages back and forth from the brain to the rest of the body. Please talk about the brain and nerves with your child. Help him or her to color this page. Thank you!

Each part of the brain has a different job.

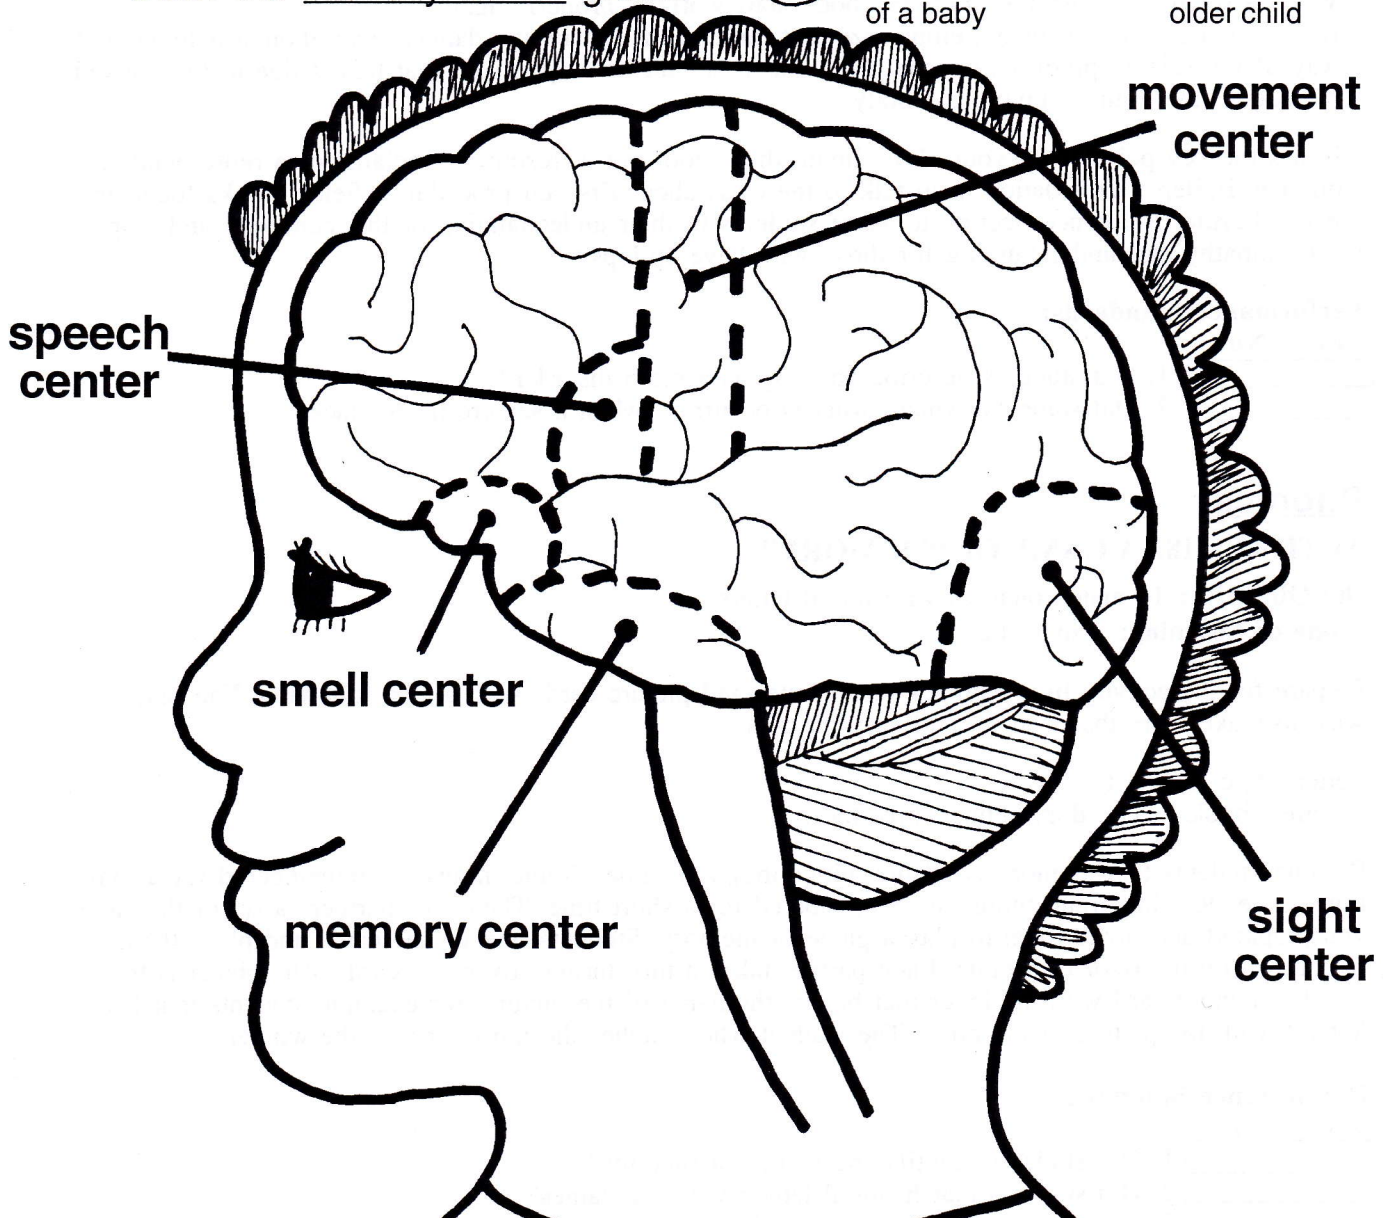

- Color the speech center pink.
- Color the sight center yellow.
- Color the movement center brown.
- Color the smell center blue.
- Color the memory center green.

nerve connection in the brain of a baby

nerve connection in the brain of an older child

Objective: To identify different sections of the brain
